

# A DAY AT BELL

## PRACTICAL INFORMATION

**Micro-WIL offered in collaboration with Bell Textron.**

**This activity is offered in French.**

**A completed micro-WIL allows you to obtain a certificate of achievement from CMAI.**

## DESCRIPTION

Bell Textron Canada is a vertical lift company focused on innovation, customer experience and superior service and support for customers around the globe. From engineering to finances and supply chain, the company is represented by more than a thousand high-skilled employees working in various aspects of the business.

During this micro-WIL, you will get an overview of the different career paths possible in the company, as well as having the opportunity to visit the Mirabel assembly plant. You will also participate in an open discussion about the future of vertical lift, as well as having the occasion to network with different managers and technical experts at the end of the micro-WIL.
