

SUMMER 2021 - MATERIALS CO-OP

DESCRIPTION DU POSTE

L3 WESCAM is an exciting company providing systems that capture stabilized, high-magnification images from fixed-wing, rotary-wing, UAV, aerostat and ground based platforms. From low-altitude tactical missions to long-range covert surveillance missions, images are transmitted in real-time to fixed and mobile receive locations for immediate interpretation. WESCAM's MX-Series of Electro-optic and Infrared (EO/IR), laser, surveillance and targeting systems provide unparalleled image stability and long-range detection capability to Defense/Military, Homeland Security, Search and Rescue and Airborne law enforcement agencies worldwide. Our dominance of the airborne platform space has positioned us for explosive and game changing growth into ground-based markets.

WESCAM offers a challenging and dynamic work environment. Work with leading-edge technology and tools, alongside some of the best thought leaders in our industry, in an environment that values work/life balance. Benefits include every second Friday off with pay (9/80 work schedule) in addition to regular vacation and public holidays, free on-site gym, free fruit, free bagels on the last day of the week, a strong focus on continuing education and much more. Most of all, WESCAM is working towards a noble cause. Our work has a direct link to saving people's lives and safeguarding freedom around the world. We truly do make a difference in our work and in the world!
